

DYNAMIC AIR RIFLES

2022 CATALOG

Dynamic Air Rifles is an **innovative** manufacturer of quality precision PCP air rifles and accessories. Our products are built for **performance** and **reliability** while providing an **incredible** value.

FX Wild Cat Chassis

MODEL: DAR-FXWCSM

The FX Wildcat Chassis is precision machined from aircraft-grade aluminum and held to extremely tight tolerances to ensure a consistent high-quality fit and finish. This chassis is feature-packed with 3 forward mounting points at the 3, 6, and 9 o'clock positions via Picatinny. Four indexing QD sling mounting points, integrated bubble level, and rear storage compartment for Fill probe, no more fumbling or losing your fill probe. A one-piece drop-in design with no modifications needed ensures integrity and accuracy. The typical installation time is only 5 minutes. If you are looking for a feature-packed chassis look no further.

- Machined from Aircraft Grade 6061 aluminum
- Picatinny mounting points at 3, 6, and 9 o'clock positions
- Two rail sections included
- MIL-SPEC type III Black hard coat anodized, also available in Cerakote Armor Black, FDE, Midnight Bronze, and other colors
- Integrated bubble level to eliminate canting
- (4) indexing QD sling Mounting Points. NO more bacon sling
- Self-closing Fill Probe Storage Compartment within the stock
- Accepts Standard AR grips
- External and Internal lightning cuts
- Monopod stock design adds stability
- Length: 24"
- Weight: 54.18 oz
- Fits: FX Wildcat MKII without modification

FX IMPACT MONOLITHIC CHASSIS

MODEL: DAR-FXIPPHG

The FX Impact Monolithic Chassis is precision machined from aircraft-grade aluminum and held to extremely tight tolerances to ensure a consistently high-quality fit and finish. Our uninterrupted monolithic rail allows the user to mount an optic anywhere on the rail while maintaining a rock-solid mounting surface. Also features mounting surfaces at the 12, 3, 6, and 9 o'clock positions for mounting additional accessories. Along with the integrated bubble level, our chassis will keep your rifle perfectly vertical for precision shot placement.

- Machined from Aircraft Grade 6061 aluminum
- Two rail sections included
- One-piece free float design w/ continuous top rail
- Accessory mounting points for user customization
- MIL-SPEC type III Black hard coat anodized, also available in Cerakote Armor Black, FDE, Midnight Bronze, and other colors
- Fits most MKII rifles with Internal bottle diameter of 2.5"
- Integrated bubble level to eliminate canting
- Forward mounting bipod point & bottle protector
- Length: 16"
- Weight: 23.07 oz
- Fits: Impact MKII without modification

MARAUDER GEN 2 RIFLE CHASSIS

MODEL: DAR-MRDCH1 & DAR-MRDCH2

Precision-machined from aircraft-grade aluminum and held to extremely tight tolerances to ensure a consistent high-quality fit. The Marauder Rifle Chassis is designed with precision long-range in mind. Accepts standard Mil-Spec buffer tube, AR-style pistol grip, Picatinny mounting points along 3, 6, and 9 o'clock positions, external & internal lightning cuts & an astonishing 17.5" of 12 o'clock Picatinny mounting points. Available in multiple configurations: DAR-MRDCH2 includes Mil-Spec buffer tube, adjustable stock, and grip. DAR-MRDCH1 includes chassis only.

- Machined from Aircraft Grade 6061 aluminum
- Two rail sections included
- Accepts AR style furniture (Mil Spec Buffer Tube & AR style grips)
- Picatinny mounting points at 3, 6, and 9 o'clock positions
- MIL-SPEC type III Black hard coat anodized, also available in Cerakote Armor Black, FDE, Midnight Bronze, and other colors
- 17.5" flat top Picatinny rail
- Length: 26"
- Weight: 36.16 oz
- Fits: Most Marauder Gen 2 rifles without modification

MARAUDER PISTOL CHASSIS

MODELS AVAILABLE:

DAR-MRDPCH-P

STOCK NOT INCLUDED

DAR-MRDPCH-NF

INCLUDES STOCK & BUFFER TUBE

DAR-MRDPCH-F

INCLUDES STOCK & BUFFER TUBE

Precision-machined from aircraft-grade aluminum and held to extremely tight tolerances to ensure a consistent high-quality fit. We offer (3) versions of this pistol: Pistol Only, Non-Folding Fixed & Folding stock. Our drop-in design requires no modifications and keeps your unit compact! The AR-style stock adaptor accepts a standard Mil-Spec buffer tube. The folding version dramatically reduces the overall length from 29" to 21" along with Picatinny mounting points along 3, 6, and 9 o'clock positions on all pistol chassis. If you are looking for an ultra-compact chassis this, is it!

- Machined from Aircraft Grade 6061 aluminum
- Two rail sections included
- 3 versions to choose from: Pistol Only, Non-Folding (Fixed) & Folding (lockable)
- Flat top Picatinny rail for forward mounting scout & red dot optic options
- Picatinny mounting points at 3, 6, and 9 o'clock positions

- MIL-SPEC type III Black hard coat anodized, also available in Cerakote Armor Black, FDE, Midnight Bronze, and other colors
- Length: 18"
- Weight: 20.81 oz
- Fits: Most Marauder Pistols without modification

WILDCAT SCOPE MOUNT

MODEL: DAR-FXWCSR

Our newest generation wildcat scope mount provides an extended 10" Picatinny base to fit virtually any size optic. Convert your dovetail to Picatinny for more versatility. Other features include not one but three magazine holders and an integrated bubble level. This snag-free mount will keep you on target longer with greater precision than ever before.

- Machined from Aircraft Grade 6061 aluminum.
- MIL-SPEC type III Black hard coat anodized, also available in Cerakote Armor Black, FDE, Midnight Bronze, and other colors
- Integrated bubble level to eliminate canting
- 3 magazine holders
- Dovetail to Picatinny conversion
- Length: 10"
- Weight: 6.8 oz
- Fits: Most Wildcat's without modification

DAR GEN 3

MODEL: DAR22G3 & DAR25G3

The Gen 3 is the newest rifle within the DAR family. Featuring all-new internals and a built-in regulator for a more consistent velocity, adjustable trigger from 1.5-5 LBS, upgraded side lever action, threaded muzzle, ultra-low decibel level, and foster QD fitting. Classic walnut stock with an easy read fill gauge and integrated Picatinny mount. The Gen 3 Rifle is featured packed with more power than ever.

- Machined from Aircraft Grade 6061 aluminum
- Adjustable Trigger Pull 1.5 to 5 LBS
- Upgraded Side Lever Action
- New Gen 3 Built-in Regulator
- Calibers .22 & .25
- Mag Capacity: 10 Rounds
- Velocity: Up to 900 FPS
- Built in Pressure Gauge
- Barrel Length: 16.25"
- Overall Length: 40"
- Rifle Weight 6 lbs. 7oz
